### **Cray Product Line - OS Update**

## George Behnke Director, Product Line OS behnke@cray.com

# Product Line - OS Overview Preview

- Legacy support status
- Cray UNICOS/mp heritage
- Cray SV2 hardware summary
- UNICOS/mp status & features
- UNICOS/mp expectations
- OS futures

# UNICOS 10.0.1.1 Legacy PVPs (May 10, 2002)

- Cray SV1ex fixes
- Support for UNICOS under UNICOS on Cray SV1ex
- Support for network I/O including raw HIPPI on GigaRings with SSD accessibility.
- Support for 224GB SSD on Cray SV1ex
- Enhanced HIPPI protocol TCP/IP rates with new protocol: Single-Stream - 600 Mb/s (75 MB/s) Multi-Stream - 720-760 Mb/s (90-95 MB/s)

# UNICOS/mk 2.0.6 Cray T3E (Feb. 26, 2002)

- Mini-launch on Restart (improves system throughput)
- /etc/swapper command (displays system-wide swap activity)
- NFS Performance Improvements
- DD-331 Disk Support
- STK 9940 Escon and SCSI Tape Support
- STK 9840 Fibre Channel Tape Support via Crossroads 8000 Router
- Last planned major release

## Veridian's PBS Pro

- Preferred batch system.
- James Patton Jones is here from Veridian
- Considering Migration Pricing for NQE Customers
- PBS Pro 5.2 shipping with Cray CIT packages in July for Cray SV1, Cray T3E, Cray T90 systems
- Cray J90 & Cray C90 thru Professional Services.

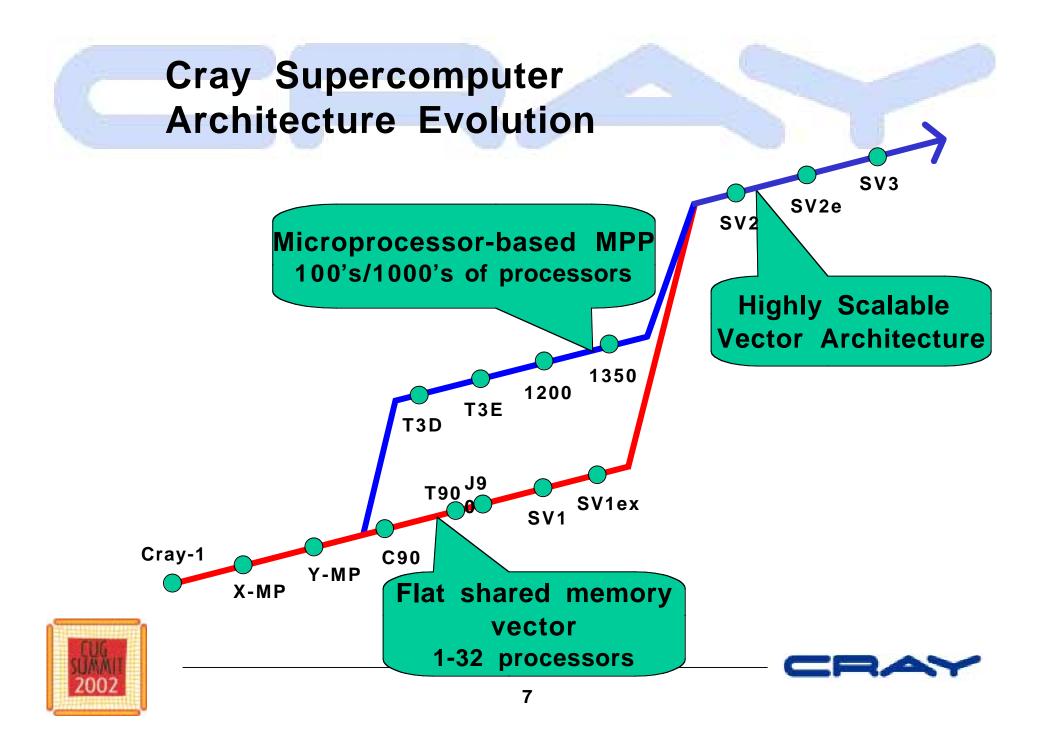

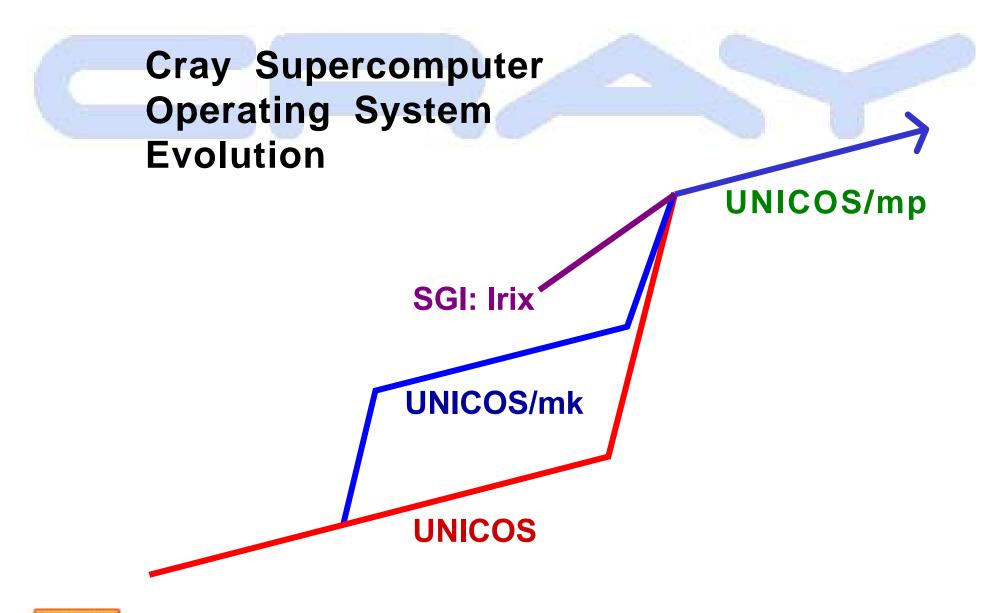

# Cray Open Source (COS)

- COS 3.0 (April 17, 2002)
  - New OpenSSH (3.0.2)
  - diffutils, findutils, sh-utils, make, tar, gawk, less
  - automake, cvs, gnuplot, patch, vim
- Support levels now categorized
  - Fully supported by Cray
  - Partially supported (accept SPRs, address some)
  - Unsupported (accept SPRs, probably don't answer)
- Source Binary packages available to reduce build time at sites (Cray J90, Cray SV1, Cray T90, Cray T3E and Cray SV2 systems)

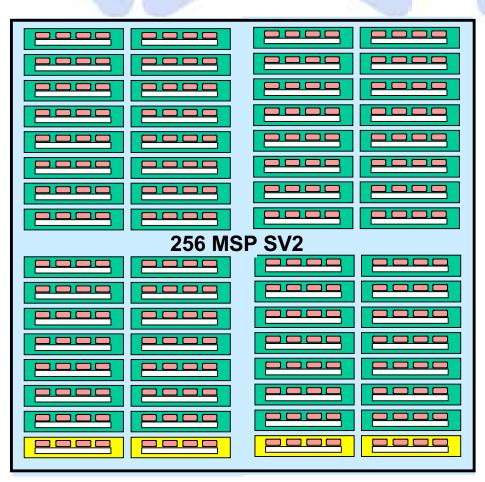

## **Cray SV2 Hardware Summary**

UNICOS/mk-like distributed OS:

Application nodes

System nodes

# **Cray UNICOS/mp Status**

- 16 MSP system running batch daily
- Delivering 5 Early Production Systems in 3rd Quarter
- Delivering Pilot System end-ofyear
- Generally available 2003

## **UNICOS/mp** Features

- XFS Local File System from SGI
- NFSv3 Support
- POSIX Commands & Utilities
- Batch Subsystem (PBS Pro)
- Checkpoint/Restart (initiated by user command, operator command or signal)

## **UNICOS/mp Features (cont.)**

- TCP/IP Support, including OpenSSH
- Administrative Support

   NIS, DNS, Kerberos (AHPCC), sar
   System dump and analysis utilities
- Process limits
- Accounting

## **UNICOS/mp Features (cont.)**

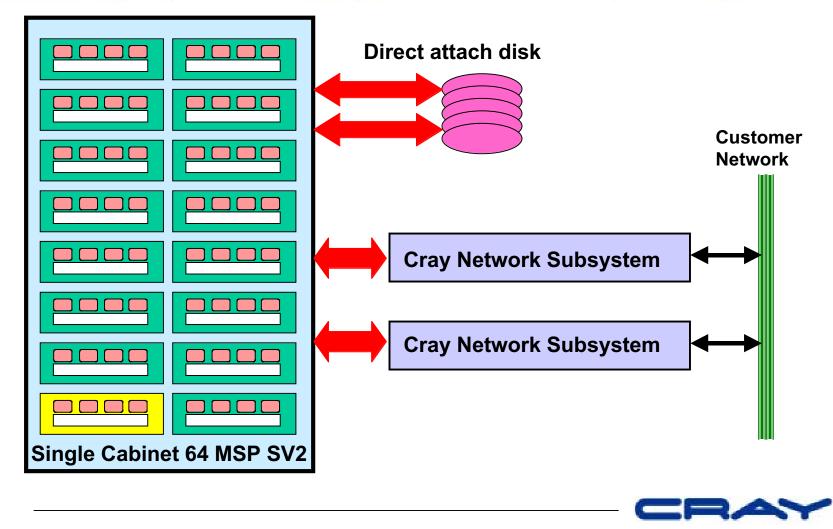

#### • Process scheduling

- 4th Generation of scheduler
- Stephan Gipp presentation
  - Today, following this presentation
  - This room

# Cray SV2 I/O Summary

### Cray SV2 I/O strategy and status

Cray I/O

- Paul Krueger
- Friday, 11:00 Room 6A (this room)
- Communication and Mass Storage Futures
  - Paul Krueger & Steve Johnson
  - Friday, 10:30 Room 6A (this room)

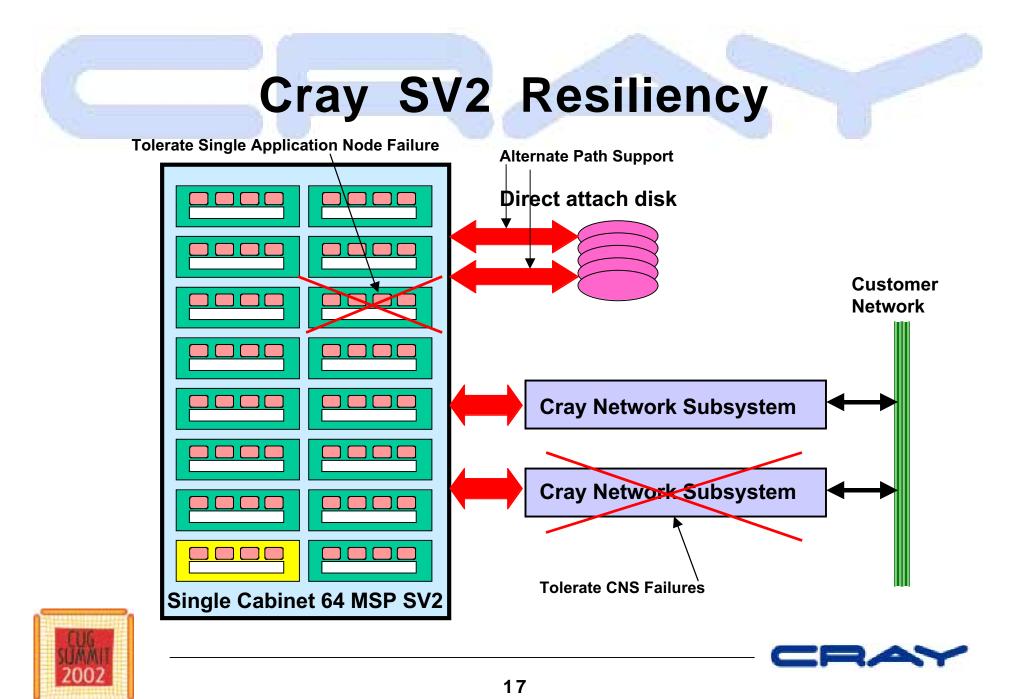

# Cray UNICOS/mp Future Expectations

- Reliability
- Resiliency
  - Tolerate IO failures
  - Tolerate Node failures
  - Scaling to 1000's of nodes
- Performance
- Compatibility
  - UNICOS
  - Open source

## **Product Line - OS Futures**

- Leveraging open source
- Partnering
  - Some struggles
  - Some take a large business case to justify

#### • Internal development

- Performance
- Reliability
- Software Survey: Janet Lebens
  - Today: 4:45 Room 4B

# Product Line - OS Overview Summary

- Legacy support status
- Cray UNICOS/mp heritage
- Cray SV2 hardware summary
- UNICOS/mp status & features
- UNICOS/mp expectations
- OS futures
